

CARAT - International Conference on Applied X-Ray Technologies

21. – 22.05.2019

**Information and Registration Documents
for Poster Exhibition**

CARAT - International Conference on Applied X-Ray Technologies

CARAT, the International Conference on Applied X-Ray Technologies, will take place for the first time on 21 and 22 May in Nuremberg. The conference's goal - as the first of its kind in Europe - is to bring together all those involved in the research, development and use of X-Rays in a wide range of applications.

The conference serves as a unique platform for research groups, manufacturers and system providers as well as users who want to inform themselves about the current state of X-Ray technology, the most important challenges and in particular the future developments and possibilities.

In exciting lectures and especially in the interactive formats, the mutual wishes and expectations are discussed and thus the realization of visionary approaches are promoted.

The conference has been initiated by Siemens Healthineers and is embedded in the congress and partnering "MedTech Summit", which will take place in conjunction with the new MedtecLIVE trade fair. The latest technological developments are taken up there as well as current challenges in the innovation process.

Poster Exhibition:

At the poster exhibition we offer you the opportunity to present your research project to an international expert audience and to make contact with potential cooperation partners.

Participant Information:

Members of university scientific institutions and non-university scientific institutions as well as scientific clinics get the opportunity to present their posters. The program committee is going to decide which posters will be exhibited. The accepted abstracts will be presented in the foyer outside the lecture rooms.

First authors of the accepted posters can register for the conference and the parallel MedTech Summit congress at the student price of 50 €. The exhibition of the scientific poster itself is free of charge

The focus of the conference is on the following topics:

- X-ray generation technologies and specialized applications
- Alternative X-ray sources: possibilities and challenges
- Requirements of modern medical procedures for beam generation
- Innovative methods for non-destructive testing

We also welcome contributions from other topics in x-ray technology.

For application, please send us an abstract for your poster, by using the template, until **April 25, 2019** via mail to info@carat-conference.com. Required are details of the title, the authors, a short description and optional image or graphics.

The authors of the selected posters will be notified in April after completing the selection process and then sign up for the conference.

Poster size: DIN A0 portrait format (width 84.1 cm, height 118.9 cm). The writing should be legible at a distance of about 1.5 m.

The posters should be fixed on the poster walls on May 21 from 8:00 am to 9:00 pm. You will receive your participant ID on the day of the event at the check-in counter, the number of your poster area at the "Speakers / Press" counter.

The poster exhibition is open from 8:30 am to 5:00 pm during the conference hours.

During the coffee and lunch breaks you should be available for interested conference participants at the poster walls.

Please remove your posters without residue on May 22, 2019 from 3:30 pm. Please understand that we cannot return left over posters.

For the participation at the conference and at the poster exhibition the registration conditions apply.

We look forward to your contribution!

Best regards
Bayern Innovativ
